Summary

As a part of Learning and Development team of Capgemini, I'm presently assisting in delivering learning solutions for varied business situations. Some of my notable achievements in current role are:
- Built assets and artifacts for client's requirement, employee upskilling and related promotional materials.
- Participated in several initiatives as a Project Manager, Reviewer, Graphic/Visual Designer and Learning Experience Designer.
- Automated business process flows and reduced manual efforts in reporting by 90% and errors to 0%.
- Implemented industry leading tools and methodologies including Design Thinking and Agile methodology.
